

# GROOVED TYPE BLIND RIVET

Body: **ALUMINIUM (5052)**

Mandrel: **Steel**

Head: **Dome**

Code	Diameter(d) X Length(L) (mm)	Head Diameter (AVE) (dk) (mm)	Head Thickness (MAX) (K) (mm)	Hole Size (mm)	Grip Range (mm)	Tensile Strength (N)	Shear Strength (N)
<b>RG</b>	4.8 x 15	9.50	2.00	5.0	11.00	1880	1350
	4.8 x 24				20.00		

- For fixing into wood and other soft/fibrous base materials.
  - Suitable for use in blind, non-through holes.
  - The grooved rivet head expands inside the material, forming little "clips" which take hold of the inner walls.
